COMMITMENTS BY COUNTRY

BELIZE · COSTA RICA · EL SALVADOR · GUATEMALA · HONDURAS · MEXICO · PANAMA
Committed to a comprehensive refugee response, Belize has been improving standard operating procedures for identification, reception and referral of refugees, while simultaneously upgrading the quality of refugee status determination processes. Effects of the current pandemic however have created obstacles, delaying envisioned progress. Similar delays have occurred in advancing sustainable solutions in the livelihoods sector as negative socioeconomic fall-out from the pandemic has limited the absorption capacity of the formal and informal economies. Within its recovery plan, Belize has identified Technical Vocational Education and Training, when adopting new transformational vocations, as key instrument for creating new growth industries, while possessing sufficient potential to rebuild Belize’s economy and to include young refugees, migrants and vulnerable nationals in delivering individual and common benefits.

Costa Rica stands on a long tradition of providing asylum and protection to refugees and asylum seekers. However, its national asylum system is under pressure as a result of displacement situations in the region, particularly Nicaragua. The country hosts approximately 100,891 persons in need of international protection, this figure represents 2% of Costa Rica total population. Out of that number 90,891 are asylum seekers (mostly Nicaraguans) and 9,801 refugees.

Through the implementation of its national chapter Costa Rica increased the overall recognition rate of refugees from 21% (2019) to 49% in 2020. Similarly, the Refugee Unit opened an office in the northern border to ensure access to the national asylum system. The access to state-run social services extended to include asylum seekers and refugees on an equal standing with nationals and provided medical insurance to 6,000 refugees and asylum seekers in high vulnerability.

Despite these efforts, the pandemic has aggravated the challenges to respond to this population, including extended claim processing times, loss of livelihoods, economic hardships, and xenophobia. In response to this scenario, the national technical team quantified and developed three concept notes on key sectors that include social assistance services, health services and the access to the national asylum system for refugees and asylum seekers.
